EXPERIENCE

Zest Al

March 2022 - July 2022

Software Engineer, Frontend

- Built React.js component and wrote Jest unit tests for in-house UI component library in Storybook, ensuring code reusability and contributing to more efficient interface development.
- Developed HTML emails for Auth0, maintaining consistent branding across authentication flow.
- Implemented custom components, integrated form validation, and utilized Redux state management with TypeScript and Sass for user-facing web application, improving UX.

Leap for Ladies

October 2021 - March 2022

Web Developer Volunteer

- Updated existing WordPress website by adding new images/copy and customizing styles.
- Created web page to showcase More Than campaign, improving outreach and engagement.

Daily Bruin

October 2019 – June 2020

Software Engineer Intern

- Collaborated on design for desktop and mobile versions of masthead component in Figma.
- Implemented and deployed React.js components based on mockups for dailybruin.com redesign, improving user interfaces and experience for millions of online readers.

UCLA Charles E. Young Research Library

September 2017 – August 2019

Student Assistant

- Assisted patrons with charging/discharging items, search requests, and reference questions.
- Pulled and charged items to scan into Google Books for the Google Digitization Project.
- Led team of six in overflow section optimization project, increasing book retrieval rate by 50%.

PROJECTS

Pokémon Team Builder

- Single-page application using React.js allowing users to build and assess Pokémon teams.
- Made API calls to Pokémon RESTful API to retrieve data for Pokémon, moves, and types.
- Utilizes a responsive web page design and styled using MUI component library.

Stardew Valley Cooking Checklist

- Interactive checklist developed with React.js that keeps track of recipes from Stardew Valley.
- Fetches cooking data from JSON file compiled from Stardew Valley Wiki Page.
- Implemented keyword search, recipe filters, and the ability to store recipe data in local storage.

EDUCATION

University of California, Los Angeles

Los Angeles, CA

Bachelor of Arts in Linguistics and Computer Science

June 2020

GPA: 3.32. Dean's List Fall 2017

Relevant Coursework: Object-Oriented Programming, Data Structures, Algorithms, and Complexity

SKILLS

Technologies: HTML, CSS, JavaScript, React.js, Git, WordPress **Industry Knowledge:** Frontend development, agile development
